MISSION

To create lasting solutions with our community that prevent and end homelessness.

VISION

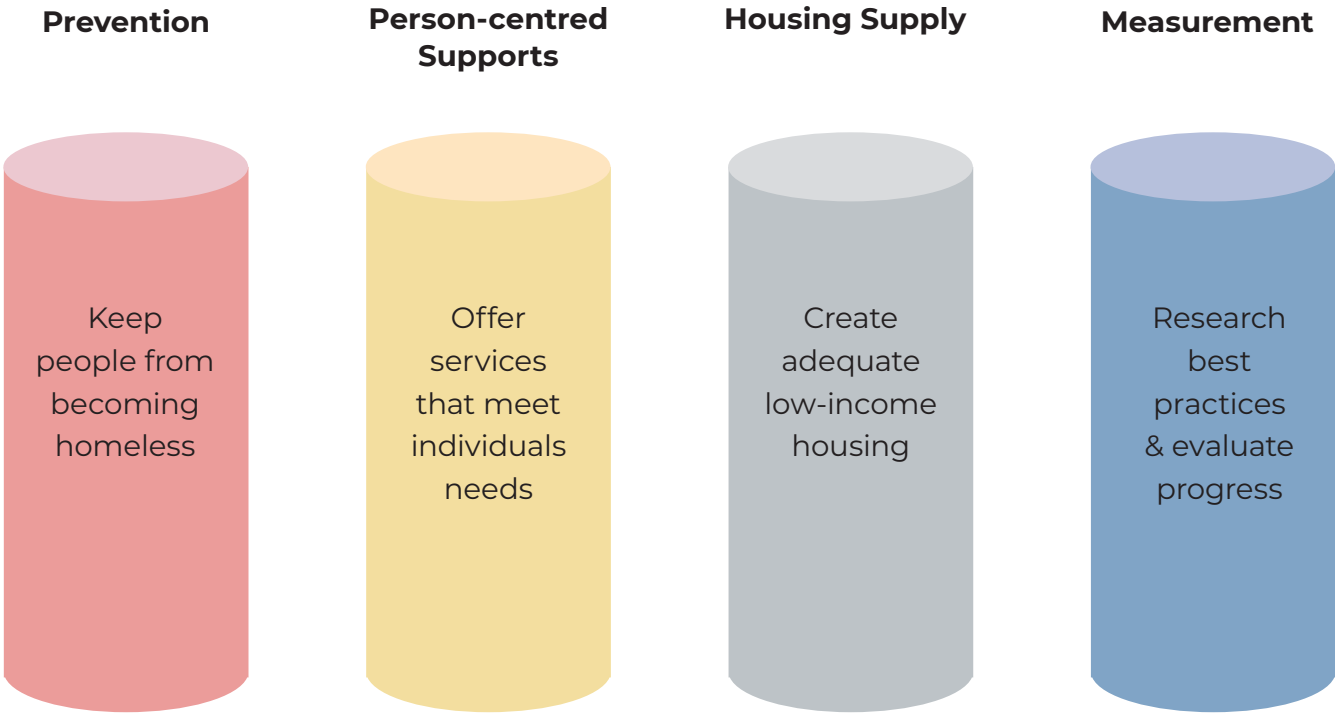

A community where everyone has a home and the supports they need to belong.

VALUES

- ▶ The UN Declaration that **Housing is a Human Right**
- ▶ The UN Declaration on the **Rights of Indigenous Peoples**
- ▶ Truth and Reconciliation as a path to ending **Indigenous Homelessness**
- ▶ Social inclusion and working to end all forms of discrimination and racism
- ▶ The voice of people with Lived Experience of homelessness
- ▶ People, organizations, and sectors working together around a common vision and shared goals
- ▶ Integrity, accountability, and transparency in all that we do
- ▶ End Homelessness Winnipeg is also guided by:
 - ▷ The principles of change and calls for justice in the National Inquiry into Missing and Murdered Indigenous Women and Girls' final report, **Reclaiming Power and Place**
 - ▷ The recommendations in the Manitoba Advocate for Children and Youth's report, **A Place Where it Feels Like Home: The Story of Tina Fontaine**
 - ▷ Nii'Kaanaagnaa – Our Hopes and Dreams: A strategic initiative to address First Nations homelessness in Manitoba (forthcoming release)

MANDATE

End Homelessness Winnipeg receives its mandate from the **10-Year Plan to End Homelessness in Winnipeg**, launched in 2014. The Plan called for creation of a new non-profit organization to provide ongoing leadership to end homelessness in our city. Working closely with the network of existing services, this new organization would have one driving mission: to end homelessness. Collaboration across systems and deep within community and government sectors would be central to its work, as would the knowledge and efforts of those with Lived Experience of homelessness, Indigenous leaders, community organizations, and the philanthropic and private sectors. End Homelessness Winnipeg opened its doors in 2015 under this mandate.

MESSAGE FROM THE CEO

As we enter our 10th year, End Homelessness Winnipeg continues to be guided by our commitment to ensuring that everyone in our community has access to safe, secure, and dignified housing. The theme for this year’s annual report, ‘Restoring Dignity through Coordinated Action,’ emphasizes the critical need for collaboration among all sectors — including the business community, community champions, as well as municipal, provincial, and federal governments — to address and solve this complex issue together.

This past year has been marked by both challenges and opportunities. We have a new premier who has set an ambitious goal of reaching functional zero homelessness in Winnipeg by the end of his second mandate. The alignment of priorities at all levels of government, with our mayor consistently championing the cause and the federal government intensifying its focus on homelessness nationwide, presents an opportunity to make significant progress on ending homelessness. The “stars are aligning,” and we have a real chance to make significant progress on homelessness.

With a bold commitment to end homelessness within two terms, the provincial government is aligning its priorities with the urgent needs of our communities, focusing on coordinated action and long-term solutions to ensure every individual has a place to call home. Jason is seen with Minister of Housing, Addiction, and Homelessness, Bernadette Smith, who just announced funding to Support Unsheltered Manitobans During Winter Months.

This is good news, because last year presented us with several challenges. We experienced an unprecedented number of emergency building closures, with over 10 buildings being shut down due to fires, poor maintenance, or illegal landlord activities. These closures displaced more than 200 people. Thanks to a coordinated effort of resources, we managed to rehouse the majority of those affected. This situation, however, exposed significant gaps in our system—particularly in the shortcomings of the Residential Tenancy Branch under current policies and procedures.

On the other hand,, Reaching Home, and Naatamooskakowin emerged as champions in the community, demonstrating the power of coordinated action in restoring dignity to those affected.

Our internal team has also made significant strides. Our newly appointed Person Centred Supports Manager has been instrumental in launching This year's to September 2024's Gizhe Waa Ti-Sii-Win Service Expo, where service providers come together across sectors to deliver essential, dignity-enhancing services for people experiencing or at risk of homelessness. In an effort to tailor support and deepen our understanding of outreach teams' needs, we have enhanced the program by adding cultural elements. This role reflects End Homelessness Winnipeg's dedication to placing people at the heart of our efforts, ensuring that our solutions are as diverse and individualized as the community we serve.

Similarly, our Housing Supply Manager has been working diligently to increase our understanding of the affordable housing landscape in Winnipeg. This year, we conducted a new baseline scan to better grasp the current housing availability, compare it to other cities, and identify critical gaps. These efforts are vital as we advise elected officials on the housing supply needed to meet the diverse needs of our community. Additionally, we are proud of the new housing developments that have opened this year, contributing to our goal of expanding access to affordable housing.

Meanwhile, our Prevention Manager has been focused on proactive measures to prevent houselessness before it begins. By working on upstream projects, we aim to prevent individuals from being discharged into homelessness from systems such as Child and Family Services, the justice system, and hospitals. These projects are essential in breaking the cycle of houselessness and ensuring vulnerable individuals receive the support they need before they reach a crisis point.

JW
Jason Whitford

As we look ahead to our next phase of strategic planning for the coming three to five years, we remain steadfast in our mission. Our focus will be on refining our strategies, strengthening our relations in the community, and fostering collaborations that drive meaningful change.

Thank you to our board of directors, partners, funders, collaborating organizations, and the entire community for your unwavering support and dedication to ending homelessness in Winnipeg. Together, with the support of our community and the momentum created by aligned governmental priorities, we will continue to advocate for the rights to housing and dignity for all.

Samantha Brown

TRANSFORMATIVE SHIFT

MESSAGE FROM OUR BOARD CO-CHAIRS

It's been a remarkable year, one that has given us new hope to transform systems and develop strategies to house all our citizens in Winnipeg with dignity, and a sense of belonging. We are grateful to Jason and his tremendous team of senior leaders and staff who are working passionately to make these hopes a reality. We can't thank them enough for their commitment to and compassion for the most vulnerable members of our community.

Phil Chiappetta

We also thank the board members of EHW for their time and expertise while exercising their governance responsibilities of an organization that is accountable to our relatives experiencing homelessness, the amazing community agencies that strive to serve them wherever they are on the homeless continuum. Our board members serve with deep commitment and desire to end homelessness in our city.

We're on the brink of something truly transformative. Since Premier Wab Kinew's election and his bold commitment to end homelessness by the end of two terms in office, there's been a palpable shift in energy across the sector—a much-needed boost, especially after the exhausting challenges frontline staff faced during the pandemic. When Kinew spoke about community, integration, and taking a holistic approach to the issue, it resonated deeply with us as board members. We know that homelessness isn't caused by one factor, and there isn't a one-size-fits-all solution. Each person has their own story, and we must meet our relatives where they are—this is the essence of our person-centred supports and Housing First philosophy.

Recently, we had the privilege of meeting a delegation from Finland, and the lessons we learned were incredible. We believe Winnipeg can replicate their success in achieving functional zero homelessness, but it will require a few key pieces to complete our puzzle — chief among them is political will. Fortunately, the new provincial government is keen to tackle this issue, as is our mayor, who, for the first time, has appointed a special advisor on homelessness — also a member of our board. This level of aligned

dedication at the provincial and municipal levels is unprecedented and fills us with optimism.

As we move forward into the new fiscal year, we're eager to keep this momentum going. We're thrilled that Hon. Bernadette Smith, the Minister of Housing, Addictions, and Homelessness, made a statement following our year end about End Homelessness Winnipeg to the Manitoba Legislative Assembly on May 6th, 2024, recognizing our work in the sector. This recognition is not just a testament to our efforts, but also a signal that our advocacy is making a real impact.

We're also incredibly proud that the Federal Housing Advocate used our Kikinanaw Óma strategy to inform her 2024 report Upholding Dignity and Human Rights: The Federal Housing Advocate's Review of Homeless Encampments. We're now awaiting the federal government's response, expected in fall 2024, which we hope will further strengthen our collective efforts.

As we step into our 10th year, we're more committed than ever to ensure that everyone in our community has access to safe, secure, and dignified housing. The stars are aligning, and with continued collaboration, we believe we can achieve functional zero homelessness in Winnipeg.

Samantha Brown

Phil Chiappetta

THE VISION OF THE SENIOR DIRECTOR OF STRATEGY AND IMPACT

As we near the completion of the 5 and 10-year strategic plan, End Homelessness Winnipeg has taken a decisive step to strengthen our position as the backbone organization within the homelessness sector by appointing a Senior Director of Strategy and Impact. This strategic addition to our leadership team underscores our commitment to drive systemic change and foster a collaborative, unified approach to ending homelessness. This role plays a key part in facilitating collaboration and aligning shared goals among the community, using a structured approach based on the Collective Impact Model. The Senior Director of Strategy and Impact is not only instrumental in guiding our strategic vision but also in ensuring that our efforts are deeply rooted in dignity and respect for those we serve. Through this leadership, End Homelessness Winnipeg continues to be the central force that unites the community's efforts, working together to create a future where homelessness is not just managed but ultimately has been ended with compassion and coordinated action.

REVISITING THE ORIGINAL PLAN

In our ongoing commitment to restoring dignity through coordinated action, End Homelessness Winnipeg (EHW) is embarking on a critical evaluation of our original strategic plan. This plan, shaped by extensive community input and rooted in the collective vision of stakeholders, has guided our efforts since 2014. However, the landscape has shifted over the past decade, influenced by significant external forces. Since the plan's inception, we have witnessed the leadership of three different provincial governments and three mayors of Winnipeg, each bringing distinct priorities and policies that have impacted our sector. The COVID-19 pandemic further disrupted our work, creating unprecedented challenges while also highlighting the resilience and adaptability of our organization. Additionally, inflation and evolving governmental policies, such as those under the Reaching Home initiative, have altered the socioeconomic environment in which we operate.

PLANNING FOR THE FUTURE AND THINGS TO COME

Building on our past experiences and the lessons we've learned, we are committed to shaping a future strategy that places dignity at the heart of our efforts. In the coming year, community engagement will be a cornerstone of this strategy. By actively gathering input from those directly affected by homelessness, we ensure that our future plans genuinely reflect the community's needs. This approach not only amplifies the voices of those who have often been marginalized but also restores dignity by recognizing their lived experiences as invaluable to our planning process. Direct feedback from individuals experiencing homelessness will guide our priorities, ensuring that our actions are both relevant and respectful.

Firstly, we are organizing a Community Sector Table, bringing together a diverse group of stakeholders reminiscent of our foundational planning efforts. This table will serve as a platform for co-creating strategies rooted in dignity, drawing on the collective wisdom and experience of service providers, government representatives, community leaders, and individuals with lived experience. We plan on engaging a broad spectrum of voices where we can develop holistic strategies that honour the dignity of every individual, ensuring that our efforts to end homelessness are inclusive, compassionate, and effective.

For the next year, we are focusing on three core areas: leadership and advocacy, resource mobilization, and capacity building.

Senior leadership of End Homelessness Winnipeg meeting with Minister Bernadette Smith and her team, collaborating to address community needs and drive forward solutions to end homelessness.

HOUSING SUPPLY

STRATEGIC PATHWAYS TO AFFORDABLE HOUSING

Adequate housing supply is essential to ending homelessness. End Homelessness Winnipeg's Housing Supply Pillar focuses on methods to improve affordable housing for individuals at risk of or experiencing homelessness. The national housing crisis has strained Winnipeg's housing market, with slowed development due to labor and material shortages. Over the past year, the team has worked closely with community and government partners to address these challenges, advocating for suitable funding programs for housing providers. Internally, efforts have been made to connect housing supply initiatives with broader services, ensuring a coordinated approach to ending chronic homelessness.

The Housing Supply Pillar's efforts have extended beyond just identifying needs; we have prioritized building capacity within the community to develop affordable housing, improved partnerships with and within the development sector, and played a greater role in community projects and housing-oriented committees. This work has helped non-profits navigate the complexities of housing development, ensuring that viable projects move forward with confidence. These strategic initiatives aim to build a strong foundation that will foster a rapid, equitable, safe, and sustainable affordable housing landscape in Winnipeg.

Justin Quigley, Manager of Housing Supply, holding a postcard for the Right to Housing Coalition Provincial Budget 2024 Campaign Launch at Harvest Manitoba.

TRACKING HOUSING STARTS

Progress towards 1,340 units

Increasing Housing Supply is a key pillar of the 2014 Plan to End Homelessness in Winnipeg. In 2019, End Homelessness Winnipeg released the 5-Year Plan, 2020-2025, which furthered the supply pillar's targets with measurable actions to chart progress on ending homelessness and advancing the Housing Supply pillar's goals. The 5-Year Plan committed to focusing efforts on 7 key targets, which included the creation of 1,345 new units of housing. A core function of the Housing Supply pillar is to annually track the status of existing and newly created housing stock.

Below is a table tracking our progress towards the goal of 1,345 new housing units by 2025. Both market and non-market housing types are included.

Type of Housing	Target	# Of Units Created, 2019- June 2023	# Of New Units in Development as of June 30, 2024	# Of Additional New Units Needed by 2025
Transitional Housing	225	343	88	-206
Rooming House	Maintain	1363	-107	N/A
Single-Room Occupancy (SRO)	Maintain	763	Data to be captured Fall 2024	N/A
Permanent Supportive Housing	200	222	0	-22
Social (RGI)	470	72	68	330
Private Below-Market Rent	450	369	108	-27
Total	1345	3132	157	75

WINNIPEG RENTAL HOUSING SUPPLY SCANS

On a yearly basis, Housing Supply publishes housing supply scans that use multiple data sources and methodologies to capture a snapshot of rental housing units in Winnipeg to understand Winnipeg's progress towards the target of 1,345 units since 2018. In the new year, we put out the 2022 Winnipeg Rental Housing Supply Scan, and we are currently nearing completion of the 2023-2024 edition. These scans build on ones that were completed for 2019 and 2021, allowing Housing Supply to begin making predictions based on trends seen in the data. This is especially valuable, as we track rental housing not typically captured by mainstream census data, such as Single-Room Occupancy hotel units and transitional housing.

UPDATING AFFORDABLE HOUSING NEEDS ASSESSMENT: WINNIPEG AFFORDABLE HOUSING STRATEGY

End Homelessness Winnipeg's Housing Supply team is revising the 2018 Housing Models and Development Framework based on community feedback and new data from HIFIS and the annual Point-In-Time Counts. This update will better reflect the community's needs, including those at risk of homelessness. With all levels of government ready to collaborate, the new strategy aims to answer key questions on the amount, type, location, and required changes to meet housing needs. Guided by three committees, the strategy's first phase includes an open house to solidify housing definitions. Each phase will conclude with community feedback and engagement.

Justin Quigley, Manager of Housing Supply, Lauren Lange, Senior Planner at WSP, and (centre) Jason Whitford, CEO of EHW at the 2023 Winnipeg Affordable Housing Strategy.

APPROACHING POLICY THROUGH COST AVOIDANCE

The Housing Supply team is developing a cost avoidance model, drawing from other sectors like climate change and labor rights, to compare public costs of chronic homelessness with the cost of providing supportive housing. This model will serve as an advocacy tool, dispelling myths about homelessness costs and highlighting the broader impacts on other sectors. It will also call for increased funding for socially supported housing, either through Manitoba Housing or supplementary programs, to help end chronic homelessness.

GUIDING FUNDING OPPORTUNITIES

Collaborative Efforts with the City and Province

To ensure a coordinated approach to affordable housing, Housing Supply staff collaborated with the City of Winnipeg, the Province of Manitoba, and Indigenous housing providers. End Homelessness Winnipeg supported the City's successful application to the Federal Housing Accelerator Fund, aligning actions with community needs. We've also worked with the Province to improve access to Manitoba Housing data, helping us better understand the housing landscape. A key initiative is the creation of a cross-governmental working group to streamline funding opportunities, reduce reporting requirements, and address funding gaps, with future collaboration expected with Canada Mortgage and Housing Corporation and Indigenous governments.

A Note on the Housing Accelerator Fund

The Housing Accelerator Fund (HAF) aims to address Winnipeg's housing crisis by fast-tracking development. With a \$122 million federal investment, Winnipeg will accelerate the creation of 3,166 housing units over the next three years and 15,000 homes in the next decade. Key initiatives include rapid zoning bylaw changes, incentivizing multi-family housing downtown, and improving infrastructure and permit processes. This collaboration between the Government of Canada and the City of Winnipeg will create a more inclusive, affordable housing landscape.

40 community stakeholders attended the inaugural meeting to kick-off the Winnipeg Affordable Housing Strategy.

CONCEPTUALIZING AN INDIGENOUS HOUSING AUTHORITY

Housing Supply received a Community Services Recovery Fund grant from United Way to fund a needs assessment for an Indigenous Housing Authority in Manitoba. This report will critically assess existing and historical Housing Authorities across Canada, and provide jurisdictional review of Municipal, Provincial, Federal, and Indigenous governance structures to assess appropriate pathways for adoption of a Manitoba Housing Authority. The jurisdictional review will also recommend options for the structural and operational elements required for an Indigenous Housing Authority.

Housing Supply plans to engage with Manitoban Indigenous housing providers to determine whether there is interest in pursuing a made-in-Manitoba Indigenous Housing Authority.

PLANNING FOR THE FUTURE AND THINGS TO COME

- ▶ The publishing of the 2023-2024 Winnipeg Rental Housing Scan which will include an updated format to be more accessible for sector partners.
- ▶ Completion of Phase 1 of the Winnipeg Affordable Housing Strategy engagement with stakeholders and community partners.
- ▶ A cost avoidance model that will seek to understand the municipal, provincial, and federal cost savings of housing an individual experiencing homelessness.
- ▶ Further collaboration with municipal, provincial, and federal funding agencies with the aim to establish a single-window capital funding opportunity.
- ▶ Updates to the Housing Supply website that will provide better resources to housing providers and sector stakeholders.
- ▶ The completion of the Needs Assessment for a Manitoban Indigenous Housing Authority, as well as follow up engagements with the community.

PERSON-CENTRED SUPPORTS

This year, we introduced an important new role, the Person-Centred Supports Manager. Though this role was established late in the year, the enthusiasm and potential it brings have already begun to make a significant impact. The introduction of this position represents a critical expansion in our efforts to enhance the work we do to support individuals experiencing homelessness and ensure that our relatives are met with more personalized and effective supports.

With this new position in place, several key projects have been set into motion. One notable initiative is the Outreach Mapping project, aimed at better understanding and optimizing the ways in which outreach services are delivered across the community. This project seeks to identify gaps and improve the coordination of outreach efforts, ensuring that individuals in need receive timely and appropriate support.

PLANNING FOR THE FUTURE AND THINGS TO COME

Additionally, the manager will be instrumental in expanding the Gizhe Waa Ti-Sii-Win Service Expo, a key event designed to connect people with various services and resources. The expanded expo in September 2024 will offer a broader range of opportunities for engagement and support, helping to build stronger connections between individuals and the resources available to them, and will introduce a brand-new cultural component.

One of the major projects has been Outreach Mapping. The results of this mapping will be shared in Spring 2025.

Another critical area of focus for the Person-Centred Supports Manager will be the examination of our unsheltered strategy Kíkinanaw Óma. This project will involve a comprehensive review of our city’s current philosophical approach to addressing the needs of those living without shelter, with the goal of identifying improvements and developing effective operational strategies. By refining our sector’s approach, we aim to help provide more targeted and impactful support to individuals who face the most challenging circumstances.

The Person-Centred Supports Manager is also working to enhance our coordinated response to extreme weather conditions, ensuring that we have robust plans in place to protect and support those most vulnerable during severe weather events. This initiative underscores our commitment to End Homelessness Winnipeg’s goal of helping the sector provide dignified and compassionate support, especially during critical times.

The addition of the Person-Centred Supports Manager to our team signifies a renewed dedication to refining and expanding our understanding of support services in Winnipeg. While the manager’s time during the reporting period was limited, the projects initiated reflect a forward-thinking approach that will undoubtedly enhance our ability to serve the community. We are excited about the continued progress and impact of these initiatives as we move into the next phase of our strategic efforts.

Vince Spence, Manager of Person-Centred Supports, and Hannah Schneider, Housing Supply Research Specialist, with Ann Gagro, Community Helper-Navigator at Sara Riel, at the OGJIITA PIMATISWIN KINAMATAWIN walk.

PREVENTION: COMPREHENSIVE STRATEGIES FOR AT-RISK POPULATIONS

The Prevention Pillar is deeply committed to restoring dignity through coordinated action, focusing on vulnerable populations at critical points of transition.

We have been focusing in the areas under the Justice, Families, and Education provincial portfolios. This is an upstream approach to help end the cycle of precarious housing before it begins.

Through these initiatives, the Prevention Pillar is not just preventing homelessness but actively restoring dignity to those at risk.

CHILD AND FAMILY SERVICES

Right to Home: A Responsive Evaluation on Post Age-of-Majority Supports for Youth and Young Adults Exiting Child and Family Services

We recognized the critical need to prevent youth and young adults exiting Child and Family Services (CFS) from experiencing episodic or chronic homelessness. To address this, we launched the Right to Home project in March 2024, with the aim of collecting and analyzing data to inform effective supports for this vulnerable population. The Right to Home project is slated for completion by April 2025.

As of March 2024, we finalized the tools for conducting interviews with lived experts, drawing on their firsthand experiences to shape our understanding and recommendations. The Advisory and Project teams had their inaugural meeting in late February 2024, setting a collaborative foundation for the work ahead.

The data collection phase that will involve interviews with lived experts will commence July 2024.

JUSTICE

Provincial Corrections - Housing and Resource Information Workshop with Women's Corrections Center:

To prevent individuals exiting provincial corrections from falling into episodic or chronic homelessness, we initiated a pilot workshop at the Women's Correctional Centre (WCC). This workshop, launched in November 2023, provided critical housing and resource information to participants. To date, the WCC workshop graduated 32 participants, with at least 10 individuals successfully connected to Naatamooskakowin (Winnipeg's Coordinated Access System).

A fifth workshop is scheduled for July 2024. A diversion pilot proposal, developed in collaboration with the Native Clan Organization (NCO), to be launched in June 2024, aimed to rapidly re-house those exiting WCC.

HOUSING AS A HEALTH ISSUE

HIV-STBBI Ongoing Work with Nine Circles:

End Homelessness Winnipeg is committed to preventing homelessness among individuals leaving hospitals or those newly diagnosed with medical conditions such as HIV or STBBIs (sexually transmitted blood borne infections). Our ongoing partnership with Nine Circles aimed to streamline the process of connecting these individuals to necessary income and housing supports.

In November 2023, EHW and Nine Circles submitted a joint letter to the Department of Housing, proposing a collaborative approach to support newly diagnosed patients. We developed a project plan to foster collective impact among hospital staff and homelessness sector workers, focusing on improving discharge processes.

ACQUIRED BRAIN INJURY RESEARCH CAFÉ

The Acquired Brain Injury (ABI) Research Café was held in November 2023 with the University of Manitoba, March of Dimes, Brandon University and the St. Amant Centre and involved meeting with 35 people with lived or work-related ABI experience.

FINANCIAL ADVOCACY - MANITOBA FINANCIAL EMPOWERMENT POLICY COMMITTEE:

End Homeslessness Winnipeg remains dedicated to advocating for adequate housing, income, and food security. Our ongoing financial advocacy efforts included collaboration with the Manitoba Financial Empowerment Policy Committee. In January 2024, we submitted a joint letter to the Federal government addressing criminal interest rate regulation, underscoring our commitment to financial justice for vulnerable populations.

Janine Bramadat, Manager of Prevention, and Katherine Armstrong, Community Food Coordinator at a Winnipeg School Division open house for the Home IS project.

PLANNING FOR THE FUTURE AND THINGS TO COME

- ▶ Provincial corrections:
 - ▷ End Homelessness Winnipeg led housing workshops will continue with a goal of holding a workshop every 6-8 weeks. We are streamlining a process to refer potential participants to Naatamooskakowin.
 - ▷ Regular meetings with NCO will continue and diversion efforts will continue to be explored with the hope this pilot will receive an extension in funding.
- ▶ Home IS (education) will continue, with a goal of holding 3-4 events this school year.
- ▶ The Right to Home project is a priority this fiscal year, with the goal of completing the project by April 2025. This project is resource intensive, and will entail interviews with 25 lived experts, surveys with service providers, and up to 2, solution exploration events.
- ▶ Heath:
 - ▷ ABI: Once the report is released, recommendations will be monitored and followed up on to ensure action is taken to improve services and programming supports for people living with ABI.
 - ▷ Release from hospital: Prevention intends to undertake system-mapping in relation to those leaving hospital to no fixed-address.
- ▶ Beginning in September 2024, a comprehensive analysis will be launched to map out services, programs, and supports for youth at risk of homelessness. This system mapping aims to identify gaps and overlaps to improve resource accessibility. Complementing this effort, the exploratory event 'Youth Homelessness Prevention – Duty to Assist,' scheduled for October 16-18, 2024, will convene lived experts, youth-serving organizations, policymakers, and all levels of government. The event will explore the implications of embedding a duty to respond to youth homelessness in legislation and will support ongoing advocacy efforts to prevent and end youth homelessness in Winnipeg.

CONTINUED ADVANCEMENT OF COMMUNITY TARGETS

End Homelessness Winnipeg continues to advance our 5-Year Plan for 2020-2025 by working towards, reaching and surpassing our seven Community Targets to reduce homelessness in Winnipeg.

CREATE

1,340 additional housing units based on identified local housing needs

ELIMINATE

Entries to homelessness among released inmates and youth who are in CFS care or disengaging from school

HOUSE

1,519 people experiencing absolute homelessness or provisionally housed

EXPAND

Use of HIFIS to 45 homeless-serving organizations and programs as part of a coordinated access system

REDUCE

Indigenous overrepresentation in emergency shelters by **50%**

PREVENT

90% of those served by coordinated access from re-entering homelessness

SHORTEN

lengths of stays in emergency shelters so that **92%** are less than 10 days

HIFIS

COORDINATING SERVICE DELIVERY

The Homeless Individuals and Families Information System (HIFIS) is designed to benefit individuals experiencing homelessness by improving the coordination and delivery of services. It allows service providers to create personalized supports for individuals and their specific needs, including access to housing, healthcare, and social support. By ensuring individuals receive appropriate and timely support, HIFIS helps to restore a sense of dignity and autonomy, as they are more likely to have their needs met efficiently and respectfully.

By 2025, our goal was to have 45 homeless-serving organizations and programs using HIFIS as part of Naatamooskadowin (Winnipeg’s Coordinated Access System). End Homelessness Winnipeg successfully achieved that goal in 2020-21 and as of now, there are 90 organizations and programs using HIFIS.

Since Naatamooskadowin was implemented in 2022, HIFIS has been actively working to onboard both Housing First and Non-Housing First agencies funded by our Reaching Home Program. In addition to this, our HIFIS team focused on transitioning all existing Partner Agencies into the Shared System to ensure a more integrated and effective network of support. This focus has translated to signing Service Level Agreements with 29 Partner Agencies.

HIFIS in Winnipeg has been functioning well, but as we look to the future, it is crucial we start tracking migration patterns to better understand and address homelessness across Manitoba. To this end, we continue to support the implementation of HIFIS for Family Violence serving organizations (Manitoba Association of Women's Shelters or MAWS) throughout the province, with our team providing system setup, user training, and ongoing support, including change management. In partnership with the Provincial Government, we are also working to integrate Brandon, Thompson, and Winnipeg into the same data cluster, recognizing that individuals frequently move within the province. This integration will enhance the connection between various agencies and services, making it easier for individuals to access comprehensive support while also identifying any gaps or redundancies in regional resources. By contributing to a larger pool of data, this initiative will inform more effective policy decisions and ultimately lead to better outcomes for individuals across Manitoba.

The integration of Brandon, Thompson, and Winnipeg into the same cluster will begin in 2024-25. We have initiated phase one of the project by hiring a contractor to assist in developing the plan. The final review of the plan is expected to be completed by the end of August 2024. Our next step will be to meet with the province to discuss their feedback and contributions as we move forward.

We have been diligently refining our internal procedures to streamline support and enhance efficiency. Over the past year, we've transitioned support requests to a centralized system, allowing us to respond more promptly and effectively. Additionally, with the implementation of new servers and a revised maintenance schedule, HIFIS has not only improved its speed for users but has also maintained a flawless record of zero privacy breaches. We continue to update our policies and procedures to ensure consistency and standardization, creating a seamless user experience for Partner Agencies and organizations.

PLANNING FOR THE FUTURE AND THINGS TO COME

Expanding Partnerships Between Brandon, Thompson, and Winnipeg: Leveraging Data to Prevent and End Homelessness

Expanding partnerships between Brandon and Thompson represents a pivotal step in our efforts to prevent and end homelessness across Manitoba. By fostering stronger connections between Winnipeg, Brandon, and Thompson, we can create a more unified and coordinated response to homelessness, ensuring that everyone has access to safe, stable housing.

COORDINATED ACCESS

Last year, we conducted a comprehensive evaluation of our housing and support resource, Coordinated Access, which led to key recommendations designed to enhance its inclusiveness, effectiveness, and efficiency. These improvements are central to our commitment to restoring dignity through coordinated action and support End Homelessness Winnipeg’s role in the community. By actively listening to the voices within our community, we are making Coordinated Access even more responsive and better aligned with the needs of those it serves.

Over the past year, we took deliberate steps to implement recommendations from the Coordinated Access Evaluation, reinforcing our commitment to restoring dignity to our relatives who need help. Our first step to improving Coordinating Access was revamping our Naatamooskadowin newsletter, transforming it into an End Homelessness Winnipeg newsletter called Wawatay. It now includes success stories, quantitative data, and community updates, promptly adding new staff to the mailing list to foster better communication. Recognizing the need for broader dissemination of policies and procedures, and to ensure consistency across all teams, we also introduced semi-annual training sessions. To enhance resource sharing, we frequently updated the resource guide and appointed a Coordinated Access Administrator in each organization. We are also developing an interactive portal for document access.

We worked hard to address the ongoing challenges in our matching and referral processes, we initiated quarterly updates on program participants through HIFIS, enabling more efficient follow-up and resource allocation.

Our Coordinated Access team, working together to restore dignity and create lasting change in our community.

Coordinated Access continues to prioritize listening to community feedback and has significantly enhanced its training and development efforts, directly aligning with our theme of “restoring dignity through coordinated action.” Based on community feedback, our training sessions were shortened and integrated trauma-informed practices and rapport-building techniques, aligning them more closely with the needs of those we serve.

By updating our training department, methods, courses, and materials, we’re equipping our teams and partners with the necessary tools to deliver more compassionate and effective support. All training will be rooted in an Indigenous perspective to deepen understanding of the individuals we primarily serve, encourage trauma-informed care, and foster supportive healing relationships. This comprehensive and holistic approach ensures that frontline staff is trained and confident in providing services that respect and uphold the dignity of those they serve. Our renewed focus on training underscores our commitment to building a coordinated system that genuinely restores dignity in every interaction.

These actions reflect our dedication to building a coordinated system that honors and upholds the dignity of every individual. By addressing the evaluation’s recommendations, we not only improved our processes but also strengthened our ability to provide compassionate, effective support to those in need. This year’s efforts have laid a stronger foundation for continued progress in our mission to end homelessness.

PROGRAM UPDATE

In this fiscal year (April 1, 2023 - March 31, 2024), we’ve conducted 263 “Sharing Experiences” intakes, creating safe spaces for individuals to share their stories and needs. Additionally, we’ve facilitated 184 “Warm Handoffs,” ensuring that participants were smoothly connected to new programs tailored to their unique situations. This is more than the 2022/23 fiscal year, where we did 98 Sharing Experiences and 50 Warm Handoffs.

These efforts reflect our commitment to providing coordinated, compassionate support, and underscore our dedication to upholding the dignity of those we serve. Through these actions, we continue to build a system where every individual is treated with respect and care.

In 2024/25, we have several exciting developments to look forward to, including the introduction of new access points, the launch of innovative referral programs, the establishment of pop-up intake locations, and the rollout of our Path Process.

CANADA-MANITOBA HOUSING BENEFIT

We strongly believe in the Canada-Manitoba Housing Benefit (CMHB) as it ensures that no one in our community faces the impossible choice between paying rent and putting food on the table. This vital top-up has proven its importance this year, as we've seen significant growth in its uptake, demonstrating the critical need for support in helping low-income households maintain stable housing.

Starting on April 1, 2023, with 711 recipients, the program expanded to support 1,858 individuals by March 31, 2024. This marks an alarming increase of 1,147 individuals, or a 161.3 percent rise in the number of people receiving benefits.

Despite facing staffing challenges that caused some backlog in processing forms, we have successfully addressed these issues diligently to ensure we continue to efficiently manage the increasing number of beneficiaries. As we move forward, we remain committed to enhancing our operations to better serve those in need as the CMHB not only alleviates financial stress but also fosters a sense of security and dignity for those who rely on it, reinforcing our commitment to ensuring that all Manitobans have access to safe, affordable housing.

Our goal for the coming year is to secure sufficient funding to expand our team as we anticipate the need in the community to keep growing. While the program was originally staffed for an intake of 200 individuals, statistics from the 2023/24 year indicate that we'll reach over 2,000 individuals monthly midway through 2024.

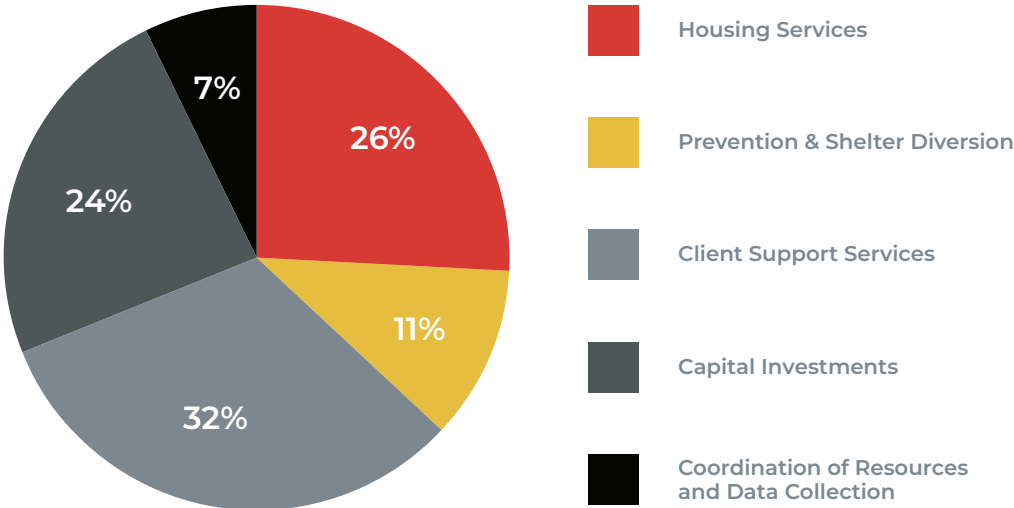

Terry-Ann Thomas, Housing Benefit Program Specialist, out in the community to inform the public about the CMHB.

REACHING HOME

The year 2024 marks the fifth and final year of the current agreement between End Homelessness Winnipeg and the Government of Canada for funding to deliver Reaching Home: Canada’s Homelessness Strategy, with End Homelessness Winnipeg serving as both an Indigenous and designated Community Entity. Since 2019, End Homelessness Winnipeg has delivered the Reaching Home Program playing a crucial role in funding solutions aimed at ending homelessness in Winnipeg, in line with the 10-Year Plan to End Homelessness.

REACHING HOME FUNDED ACTIVITIES - 5 YEAR INVESTMENT 2019-2024

The chart shows the distribution of Reaching Home's funding from 2019 to 2024. The largest share, 32%, went to Client Support Services, followed by 26% for Housing initiatives. Capital Investments received 24%, Prevention & Shelter Diversion received an allocation of 11%, and Coordination of Resources and Data Collection was allocated 7%. The funding strategy is focused on both immediate support and long-term solutions to homelessness.

In 2024, unanticipated building closures challenged our existing strategies for Reaching Home funding, which led to the expansion of our response framework. Initially focused on weather-related issues, the Community Advisory Board (CAB) decided to enhance support for Winnipeg’s houseless population by expanding the Extreme Weather Fund into a comprehensive Emergency Response Fund.

Historically aimed at mitigating costs for organizations supporting people living unsheltered during extreme weather, the expanded fund now includes provisions for short-term accommodation, lodging, and flex-funds for urgent needs like medications, food, and storage. This strategic move allowed us to address a wider range of emergencies, including displacement due to fire, health and safety issues, and evictions from encampments. This development is a significant advancement in our ability to provide timely and flexible support to those facing immediate crises.

The shift from Emergency Weather to Emergency Response was also on the heels of the Winter Investment Plan (WIP) fund a critical federal initiative developed in response to the recommendations of Federal Housing Advocate Marie-Josée Houle. Her report underscored the dangers faced by individuals living in encampments due to systemic failures in upholding the right to adequate housing, calling for a national response to this human rights crisis.

The WIP fund, therefore, provided a one-time funding injection to enhance drop-in and outreach services, offering warm clothing, essential supplies, and support for unsheltered individuals and families. Through the coordinated efforts of sector partners, those impacted by the harsh winter were ensured access to safe and secure shelter, delivered in a dignified and humane manner.

LEAVING NO ONE BEHIND

In furthering our commitment to promoting inclusivity, upholding human rights, and most importantly, the dignity of the human person, we are dedicated to implementing our funding responsibility towards projects aimed at ending homelessness in Winnipeg. As part of this effort, the 2Spirit Peoples of Manitoba and Sunshine House received funding under our Capital Investments stream for the development of the Queer Village.

The 4-storey housing project has been named Minwaase-biindigewigamig by Kookum Gayle Pruden – meaning ‘beautiful light come into the building’ in Anishinabemowin. When operational in 2025, the facility will provide a safe and welcoming space that offers immediate, short-term shelter and culturally informed wrap-around support for Winnipeg’s 2SLGBTQQIA+ community, many of whom face housing discrimination and marginalization. The project will also feature communal spaces, a kitchen, Elders’ and ceremony rooms, a medical room, counselling offices, laundry, storage, and an outdoor medicine garden.

Front view of the proposed Queer Village, a collaborative project between Sunshine House and 2Spirit Peoples of Manitoba.

Back view of the proposed Queer Village, a collaborative project between Sunshine House and 2Spirit Peoples of Manitoba.

Significant investments were made in harm reduction, including the procurement of a drug testing machine for Sunshine House. This machine plays a vital role in preventing accidental overdoses and reducing harm within the community. Additionally, Reaching Home provided funding support to Sunshine House Inc. and the Aboriginal Health and Wellness Centre for the purchase of outreach vans, enhancing their ability to reach vulnerable populations. These mobile units are crucial for outreach efforts, meeting unsheltered people where they are and offering the support they need to stay safe and healthy.

A cross section of team members at Sunshine House.

SAFE, WELCOMING, HUMANE SPACES

With funding support from Reaching Home, the Salvation Army renovated 324 Logan Avenue as a temporary shelter in downtown Winnipeg to provide 80 additional beds specifically for unhoused newcomers. The renovations at the site included HVAC replacement, fire panel, supplies and furniture.

With 24-hour staffing and access to essential services such as caseworkers, meals, and employment support, the initiative was aimed at providing a critical lifeline for newcomers within a safe space and in a dignified manner.

The supportive environment offered culturally appropriate services, helping individuals and families adjust and thrive in their new surroundings. The collaborative effort helped newcomers transition into their new lives in Canada with hope and stability.

In concluding the fifth year of our first agreement with the Government of Canada, the theme “Restoring Dignity Through Coordinated Action” reflects the core values that have guided our efforts over the past five years. The progress made in 2024, particularly in response to the challenges posed by extreme weather conditions, demonstrates the strength of coordinated action and well-thought-out community-driven solutions.

Going forward, as we implement a new agreement with Housing Infrastructure and Communities Canada and achieve more milestones in the years ahead, our commitment remains steadfast: to uphold dignity and respect as the core values guiding our efforts to end homelessness in Winnipeg and to forge even stronger partnerships within our community to ensure that everyone has a roof over their head and the support they need to thrive.

Independent Auditor's Report

To the Board of Directors of
End Homelessness Winnipeg Inc.

Opinion

We have audited the financial statements of End Homelessness Winnipeg Inc. (the "Organization"), which comprise the statement of financial position as at March 31, 2024, and the statements of revenue and expenditures and changes in fund balances and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Organization as at March 31, 2024, and the results of its operations and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations ("ASNPO").

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards ("Canadian GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Organization in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with ASNPO, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Organization's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Organization or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Organization's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Organization's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Organization to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to the Financial Statements
March 31, 2024

1. NATURE AND OBJECTIVE OF THE ORGANIZATION

End Homelessness Winnipeg Inc. (the “Organization” or “EHW”), formed by Articles of Incorporation under the Corporations Act of Manitoba on May 14, 2015, without share capital, is a non-profit organization and therefore, is exempt from income taxes. The Organization became a registered charity in July 2017.

The Organization receives grants to help bring an end to homelessness in the City of Winnipeg. As a non-profit organization, the goal of End Homelessness Winnipeg is to use a collective impact approach towards ending homelessness. EHW is a backbone support organization that brokers stakeholder relationships and coordinates efforts through its various committees and working groups. EHW both leads and supports initiatives that are created and led by other organizations.

2. SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared in accordance with Canadian accounting standards for not-for-profit organizations and include the following significant accounting policies:

a) *Fund accounting*

The Organization maintains the following funds:

The General Fund is available for the operation of the Organization in accordance with the aims and objectives of the Organization and the discretion of the Board.

The Community Entity Fund is available to administer the funding agreements between the Organization and His Majesty the King in Right of Canada related to the Reaching Home Designated funding stream and Reaching Home Indigenous funding stream. The funds are restricted for distribution in accordance with the conditions attached by the funding agreements.

The Housing Benefit Fund is available for the administration of the Canada-Manitoba Housing Benefit (CMHB) (and the related building services program) which is a portable shelter benefit paid to eligible renters in core housing need. The CMHB is available to individuals at risk of homelessness or who are homeless, and are connected with housing support programming at the time of application.

The Housing Supply Fund is available for early-stage funding for the Housing Supply Action Committee of End Homelessness Winnipeg with respect to their proposed “cost-avoidance” model of government and private financing for capital investment. This fund will allow End Homelessness Winnipeg to provide an upfront capital investment, along with private investors, to fund additional affordable housing units under this model, with the commitment of government to return principle with interest over an agreed upon term.

END HOMELESSNESS WINNIPEG INC.
Notes to the Financial Statements
March 31, 2024

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

a) Fund accounting (continued)

The Capital Asset Fund reports the assets, liabilities, revenue and expenses related to the Organization's capital assets.

The Stabilization Fund is used to support EHW operations in special circumstances, and to provide a stable flow of resources for operations.

b) Revenue recognition

The Organization follows the restricted fund method of accounting for contributions.

Externally restricted contributions are recognized in the fund corresponding to the purpose for which they are contributed. Other restricted contributions received for funds not presented separately are deferred and recognized as revenue in the General Fund in the year which the related restriction is met.

Unrestricted revenues are recognized as revenue of the General Fund in the year received or receivable if the amount can be reasonably estimated and collection is reasonably assured.

c) Financial instruments

Financial assets and financial liabilities originated or exchanged in arm's length transactions are initially recognized at fair value when the Organization becomes a party to the contractual provisions of the financial instrument. Financial assets and financial liabilities originated or exchanged in related party transactions, except for those that involve parties whose sole relationship with the Organization is in the capacity of management, are initially recognized at cost. Subsequently, all financial instruments are measured at amortized cost.

Transaction costs related to financial instruments subsequently measured at fair value are expensed as incurred. Transaction costs related to other financial instruments are added to the carrying value of the asset or netted against the carrying value of the liability and are then recognized over the expected life of the instrument using the effective interest method. Any premium or discount related to an instrument measured at amortized cost is amortized over the expected life of the item using the effective interest method and recognized in the excess of revenue over expenditures as interest income or expense.

With respect to financial assets measured at cost or amortized cost, the Organization recognizes in net earnings an impairment loss, if any, when it determines that a significant adverse change has occurred during the period in the expected timing or amount of future cash flows. When the extent of impairment of a previously written-down asset decreases and the decrease can be related to an event occurring after the impairment was recognized, the previously recognized impairment loss shall be reversed in the statement of revenues and expenditures in the period the reversal occurs.

END HOMELESSNESS WINNIPEG INC.
Notes to the Financial Statements
March 31, 2024

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

d) Capital assets

Capital assets are recorded at cost. Amortization is determined on a declining balance basis using the following rates:

Computer equipment	55%
Furniture and fixtures	20%
Leasehold improvements	term of lease

e) Use of estimates

The preparation of financial statements in conformity with Canadian accounting standards for not-for-profit organizations requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Significant estimates include the useful life of capital assets.

	Maturity date of funding commitment	<u>2024</u>	<u>2023</u>
Government of Canada	March, 2028	\$ 23,715,124	\$ 18,396,999

END HOMELESSNESS WINNIPEG INC.
Notes to the Financial Statements
March 31, 2024

4. N'DINAWEMAK WARMING CENTER

	<u>2024</u>	<u>2023</u>
Government of Manitoba	\$ 3,865,000	\$ 3,872,000
Donations	835,962	1,294,816
United Way of Winnipeg	10,000	-
	4,710,962	5,166,816
<hr/>		
Funding from Reaching Home: Designated Communities	50,529	20,260
Total N'Dinawemak Warming Center Revenue	\$ 4,761,491	\$ 5,187,076

With the formation of the new organization, N'Dinawemak Inc., End Homelessness Winnipeg Inc. officially transferred over the operating agreement with the Government of Manitoba to the newly formed Organization in April 2024. EHW will not continue to manage the operations of the N'Dinawemak Warming Center in subsequent years.

5. OTHER FUNDING

Other funding amounts were received during the year for the following: Gizhe Waa Ti-Sii-Win Service Delivery Expo, Homeless Individuals and Families Information System (HIFIS) and donations from the community.

6. COMMUNITY INVESTMENT

Direct community costs include the programs and projects End Homelessness Winnipeg coordinates in the community. Salaries and benefits include the salaries and benefits of four Manager positions and a portion of the Senior Director of Housing Supports, that directly support the four community investment pillars, the direct program and project staff, as well as a portion of the salaries & benefits of the Chief Executive Officer, Senior Director of Finance & Operations, Finance Coordinator, Human Resources Coordinator, Communications Manager, and Executive Assistant.

7. SALARIES AND BENEFITS

Salaries and benefits for the year includes expenses recorded in the general fund for core operations of \$114,486 (2023 - \$210,322), salaries and benefits for the community entity of \$1,413,010 (2023 - \$1,122,479), and salaries and benefits for housing benefit of \$165,789 (2023 - \$194,816).

END HOMELESSNESS WINNIPEG INC.
Notes to the Financial Statements
March 31, 2024

8. OFFICE EXPENSES

Included in the general fund office expenses is \$nil (2023 – \$239) related to the N'Dinawemak Warming Center and \$128,221 (2023 - \$53,380) related to core operations.

9. CAPITAL ASSETS

	2024		2023	
	Cost	Accumulated Amortization	Net Book Value	Net Book Value
Computer equipment	\$ 82,478	\$ 62,477	\$ 20,001	\$ 10,001
Furniture and fixtures	82,935	50,422	32,513	39,918
Leasehold improvements	281,126	8,742	272,384	-
	\$ 446,539	\$ 121,641	\$ 324,898	\$ 49,919

10. HOLDBACKS PAYABLE

Holdbacks payable represents the remaining payments for each of the Community Entity sub-projects as the Organization is awaiting final expense support.

11. COMMITMENTS

The Organization has lease agreements for premises expiring in 2029 requiring minimum annual lease payments over the next five years as follows:

2025	\$ 131,443
2026	131,443
2027	128,887
2028	100,776
2029	67,184

12. COMMUNITY ENTITY FUND

The surplus in the Community Entity Fund has been approved by Service Canada to be carried over to provide additional funding to sub-projects in the 2024-2025 fiscal year.

13. INTERFUND TRANSFERS

During the year \$297,209 (2023 - \$nil) from the General Fund were transferred to the Capital Asset Fund for the purchase of capital assets, \$39,211 (2023 - \$nil) was transferred from the General Fund to the Stabilization Fund and \$nil (2023 - \$400,000) was transferred from the General Fund to the Housing Supply Fund.
